## Education

### Ramgarh Engineering College

B.Tech in Computer Science and Engineering - **CGPA - 8.09**

**2020 – 2024 (L.E)**

Ramgarh, Jharkhand

### Government Polytechnic Nirsa, Dhanbad

Diploma in Civil Engineering - **Percentage - 80.81**

**2018 – 2021**

Nirsa, Jharkhand

### Leela Janki Public School, Bokaro

Matriculation - **Percentage - 81.60**

**2018**

Bokaro, Jharkhand

## Coursework

- Data Structures
- DBMS
- Algorithms
- Operating System
- OOPs
- Computer Networks

## Experience

### The Sparks Foundation

**June 2023 – July 2023**

Web Development and Designing Intern

- During my internship at The Sparks Foundation, I had the opportunity to work in Frontend Web Development using HTML, CSS and JavaScript.
- I regularly submit work reports of my assignments to the team members in which I fix bugs, resolve errors related issues and contribute to the project in the assigned task.

### InternPe

**May 2023 – June 2023**

Front End Developer Intern

- Learned the basics of HTML, CSS and JavaScript.
- Assisted in development of the front end of web application using these technologies.

## Projects

### Portfolio Website | *ReactJS, Express.js, Node.js*

[Live](#) [GitHub](#)

- Developed a personal portfolio website to showcase projects, skills and resume.
- Utilized ReactJS and Express.js to build a responsive and visually appealing animated website with E-mail feature.
- Many more live projects are attached in the Portfolio.

### StudyNotion App | *ReactJS, Redux, Node.js, Express.js, MongoDB*

[Live](#) [GitHub](#)

- Study Notion is a full stack and fully functional EdTech (Education Technology) web application developed using the MERN stack that enables users to create, buy and rate educational content.
- **Features:** Login and Sign up, User authentication and authorization by email and OTP verification, forgot password, Course management (C.R.U.D), Payment Integration by Razorpay, Cloud-based media management (Cloudinary), Add to Cart, Whishlist, Profile Dashboard, Edit Profile, Browse Course by Filtering, Add Reviews and Rating, RESTful APIs, Responsive Application.

### Weather App | *HTML, CSS, JavaScript*

[Live](#) [GitHub](#)

- Designed and developed a web application that provides real-time weather information for a given location.
- This app uses free weather API to retrieve weather data and displays it in an easy-to-read format.
- It allows us to view the current temperature, wind speed and humidity. We can search weather by city name.

## Technical Skills

- **Programming Languages:** C++ (Primary), Java, Python, JavaScript
- **Data Structures and Algorithms**
- **Frontend Technologies:** HTML, CSS, JavaScript, Tailwind CSS, ReactJS, Redux Toolkit
- **Backend Technologies:** Express.js, Node.js
- **Database Technologies:** MySQL, MongoDB
- **Version Control:** Git, GitHub
- **Developer Tools:** Visual Studio Code, Postman
- **Full Stack Web Development (M.E.R.N Stack)**
- **Strong Problem Solving and Analytical Skills**

## Extracurricular

- Solving DSA Problems on [LeetCode](#) and [GeeksforGeeks](#) and also practices on other platforms like [CodeStudio](#).
